## THE AVK CORE BUSINESS AREAS

AVK is divided into three main business areas, AVK water, AVK Industrial Valves and AVK FLOW CONTROL. These areas are built upon companies that possess product and manufacturing competences, which are used in many different business segments throughout the world. To comply with the needs of our customers, we act as an international manufacturer – designing, producing and selling our own products.

# AVK INDUSTRIAL VALVES

The recent years' acquisitions of companies has now formed the basis for a new AVK business area – called AVK Industrial Valves. Here, a wide range of competences have been unified with the purpose to deliver more than just high quality products, but to deliver solutions that help optimise our customers' businesses.

Each of the companies and their respective partners operating within the AVK Industrial Valves business unit has comprehensive expertise within customised valves and accessories, as well as complete solutions.
